Details

A 28,000 square foot, \$3.5 million 18-tenant strip mall plaza in Wexford, PA.

For this project, A. Martini & Co. worked closely with PennDot to overcome several challenging site issues. For the construction of this building, the intersection and road leading to the mall were widened in order to accommodate the increased traffic flow. A new traffic light was also installed. A. Martini & Co. completed the extensive site work, including utilities with a detention tank, on time and within 10 months.
