Details

A \$450,000 renovation of a two-floor hardware store into a 3,500 square foot office and 3,500 square foot showroom.

“A. Martini & Co.’s crew was incredibly professional during construction. The site was kept clean and safe, and they didn’t affect the operation of the other businesses on the block.”

*Richard Rattner,
President, Shadyside
Chamber of Commerce &
Owner, William Penn Tavern*

The jewelry showroom features custom-built display cases and high quality finishes. For this project, A. Martini & Co. collaborated with the client and architect to review designs and offer suggestions for cost efficiencies. This extensive renovation was completed in the Shadyside business district and required the construction team to address site issues regarding pedestrian safety and logistics regarding material delivery.
